“ *I'm remember back in the day, working at the Ford dealership in El Campo with Guy. There wasn't anything that he couldn't design and build. He was a very talented person. Not to mention at the time, all the Proctor's worked there Guy, Frank and Leonard. All very talented, good friends. Enjoyed those times.*

“ Oh The Memories !!

If my brain could remember when we were 2&3 years old, when our Mom's worked at the hospital in Wharton, I don't know who took care of us maybe an Aunt, but I bet we got into some kind of trouble.

You lived in Aguilar a little stop in the road on the way to Laredo, and at least once or twice a year we would visit. There were horses and wagons and we would have to haul water to the cattle. That was like going back in time to the old western days. What adventures we had.

Then there was Alabama you introduced me to your friends and I learned everything I ever read about southern people and plantations was true. That was a teenage dream.

Then back to Texas and your Cajun wedding. That was the first and only time I ever saw our grandparents dance. That was something special.

From there we were in and out of each other's lives but we ended up in Victoria. Didn't see much of you unless we ran into each other at HEB, then we would talk for an hour or so catching up on our kids, mostly yours, I only had two sons and two grandsons.

74 years-where did the time go, seems like yesterday.

I will miss you Cousin 🥺

I first met Guy when I was 4 years old. He was a giant of a man then and now he's a Giant of a Angel

“Dad has left this life. Gone on with the next journey. His passing was very quick. He had loved ones near him, holding his hand. Thank all of you for your prayers and support. The Lord called him home and we are all grateful for the job he did while he was here.

When I think of Dad. I remember fishing. Catching that big catfish at the low bridge up Mustang that would not fit in the dip net. That was The Big One that got away. The leaning stump up Sandy's Creek that we fished relentlessly after Audie and Duane reported their trotline raided fish were caught there. The time I hooked his glasses 🕶️ on a cast for Bass at the 172 bridge at Mustang Creek, and reeled them back in. His humor was forever at a high while fishing. 🪝 The time I went to set the hook on that yellow rod, which was hooked under a rope cleat, and broke the shaft. He just broke out some colored thread and resin and fixed it. I saw that rod when we fixed the house after his stroke. I will miss calling him for advice on random things just to keep him in the loop on what ever nonsense I was getting into wether that was avoiding calling a technician in for a repair at Anchors 🚢 Landing or fixing something around the house, or some project at the ranch Brian cooked up to fill a weekend. He would always have a "Guy Proctor " angle to work it from. He has been a tremendous part of who we are. For me for sure.

It is certainly an incredible honor to call him our daddy. God gave us four the best of the best!

Guy a man of few words but when he spoke it was profound. His eyes could speak to me without any other form of communication. I thank God for the 37 years He allowed us to have. He will be missed by many far beyond the immediate family.
