“ *My sincere condolences to all the family on Danny's passing.*

I was on the same team with Danny at Shell's Bellaire Research/Technology Center for several years and was one of the many people who were the beneficiaries of his excellent work ethic, attention to detail and personableness, especially in the job he was in his last five years.

I wrote the following to our site management on Dec. 9, 2004, when I found out that he was planning to retire after 38 years with Shell: "Danny has always responded to requests in a very timely fashion, done thorough work and been extremely reliable and very personable and pleasant to deal with in the process. He has been one important element of the infrastructure glue that has held BTC together so well and allowed all of us to do our jobs and not sweat the other stuff because he has done his work so well. ..., I ask you to consider formally acknowledging Danny for his truly extraordinary work ethic and effectiveness on behalf of all of us. He deserves generous recognition."

You can be proud of who he was and how he treated people. May his memory be a blessing.
